

VASE: VERONE

Design by

Description

Vérone is a very attractive vase in very fine mouth-blown glass which, with its frosted finish, gives the impression that it was hewn from marble. The glass is made from recycled glassware. The reference to Verona, a Unesco World Heritage Site, reminds us that it is in this city that are found the richest collection of Roman remains in the whole of Northern Italy.

Vase in mouth-blown glass in a fusion of 4 colours: gris bleu / vert / fumé / ambre. The result varies from one piece to another. Matt finish on both interior and exterior.
